Abraham Kuyper D.D.

Esteemed Sir:

The copy of your Encyclopedia Vol. I. came duly to hand. It is a princely gift worthy of the giver. I know not why I should have been so greatly favored. Allow me to say "Thank you" from a grateful heart.

The appearance in English of the Encyclopedia according to my idea, should precede that of the "I vote 1." For this reason I am not pushing now the translation of "I vote 2."

My translation of Calvinism and Constitutional Liberties will shortly appear.
And later on, I think, the volume on
"De Vleeswond der Wonden" and the volume
on "De Reformatie der Kerken" would be
valuable contributions to our religious work
in America, for which I would gladly
receive the translation privilege.

With earnest prayers for unbounded
blessings on your labors and yourself
allow me to subscribe myself

Very faithfully, your brother in Christ

J. Hendrik de Vries
