Bronxville, N.Y. March 16 96

Estimes and dear Dr. Kuyper,

Accept my cordial thanks for the appointment. The contract has been now copied and the desired declaration is made.

Condition 1. I do not fully understand what do you mean by every sheet - in 3 copies, does that mean that you want the entire work of 3 copies sent over to you for final examination? and by implication do you mean distribution?

Condition 2. I am at work on Vol. II at the rate of 16 pages a week. I have 55 pages done. I do not think any other part of the work will exceed this rate for difficulty, but after 200 pages shall have been translated I shall know more.

Please change the date. March 1 is a Sunday. Ideas are just a little different here. Business contracts are dated on week days. Will you mind? Make it March 2.

And when you write will you kindly have a little care as to chirography? Please bear with my requests.

Please give me English words or English for Beef and Begrip? -
Het Begrip der Wetenschap - The Conception of Science. What difference?

With kind regards,

Very truly yours,

J. Hendrik de Vries.

570a: A fouret evil hides in our imagination.
In a normal condition the self-consciousness
(het zelfbewust) ought to point out immediately
and accurately the boundary-line between that
which comes into our consciousness from the existing
reality, and that which is brought in our consciousness
by our imagination. As a result of sin however
this boundary-line is not only uncertain, but with
strongly passioned natures sometimes absolutely
indiscernible, so that phantasy and reality are constantly
at play through one another. The difficulties here
does not consist merely in the uncertainty of the
boundary of the boundary-line, the imagination itself
is in an abnormal condition of—
