Dear Dr. Kuyper,

Your proposal at hand. I am glad of your consent. It will be necessary to hand in the arrangement of the MSS with the MSS. Please send one to me at once.

2. Dr. Warfield suggests, and I ask, that you send us a picture of yourself, a small vignette of which to appear in the Capital letters of the first word of the book. Will you do this?

3. I expect to go on with Vol. III as soon as this book is off my hands, as per contract.

4. Please give me your home address in Amsterdam.

5. Consciences is an absolute necessity for English Composition. Therefore I have been obliged to omit some detail statement from your "Science" definition, page 29 Vol. II. But before it appear in print I submit it to you for approval.

(over)
Science, thus understood, presents itself to us
as an ever progressing impulse in the human
mind, to reflect the cosmos plastically,
as to its elements, and to think it through
logically as to its relations.

Hoping to hear from you soon
I remain Very Faithfully yours

J. Hendrik de Vries.

The Rev. A. Kuyper D.D. LLD.
Amsterdam.
